## **REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF**

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

### **WE MUST ALL BE CAREFUL:**

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush:
  - a. Always get a permit to burn from the warden.
  - b. Start your fire late in the day after 5:00 P.M.
  - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

### **IN CASE OF FIRE TO CALL BY TELEPHONE:**

- (1) Dial your Access No. then 352-1100.
- (2) When dispatch center answers give your name, location and description of fire.

Wait a few seconds and listen for alarm.

We wish to thank the townspeople for their help in making our Auction a success and to the ones that provided coffee and sandwiches at the Trestle and Tacy fire. It was very much appreciated.

We purchased 150 ft. of 2½-in. and 100 ft. of 1½-in. hose from the appropriation and this has been put on our new truck.

Last year was a rather busy year for fires, but was lucky on brush fires seeing how dry it was.

Fires that we attended were: 3 House Fires, 1 Trestle Fire, 2 Oil Burner Fires, 1 Truck Fire, 3 Dump Fires, 2 Chimney Fires, 1 Mill Fire, 2 Brush Fires and 1 Mutual Aid Call. We called for assistance from Mutual Aid 3 times and had 3 False Alarms.

We held five practices last year and are planning to have a state instructor give us some classes this coming summer.

Would like to bring to your attention that on the inside of your telephone book there was a mis-print on the Phone Number for Keene. It should have been 352-1100 — not 1110 as was printed.

## SUPERINTENDENT'S REPORT

To the School Board and Citizens of Bennington:

It is a pleasure for me to present my twelfth annual report for your consideration.

### Federal

Prognostication, particularly in this era of rapid change is, at its best, a dangerous pastime as any weather man will attest. However in my occupation, as in several others, keeping abreast of the times requires this activity, using the best available information to formulate a prediction.

Last year, in my report, I was only half right when I predicted that Congress would pass legislation for certain activities. I based my assumption on the apparent necessity for States and Local school districts to receive aid to curtail rising local assessments. Congress did pass the now well known "Elementary and Secondary Education Act" which included financial support. They did not, however, provide for any financial support of existing educational programs. Congress, whether right or wrong, accepted the proposal made by our present leaders that education in this Country was not keeping up with the scientific and technical advancements of society and thereby creating sociological and economical problems. The result of this thinking was P. L. 89:10 with its five titles. I will deal with only titles one and two inasmuch as those are the only ones with which we are directly involved this year.

Title One contributes funds on the basis of the number of low income families in the town to provide some kind of educational service not now existing or the expansion of a present program. Under the statutes this program has to be aimed at the financially and educationally deprived youngster and the amount available to each Community is based on the number of those people residing in the town. It would appear that there is a small number of qualifying families in the area, which results in extremely small funds available to our area Communities. In some instances this could result in a Community not implementing a Title One program.

Title Two is not a poverty program, but one of out-right grants, established to upgrade the library resources available in Supervisory Union No. 24. All materials purchased under this grant remain the property of the Supervisory Union and each school is used as a depository for these materials. Books and other materials may, and should be, transferred from one school to another within the Union as a need arises.

I make no attempt to defend or criticize federal aid to education. P. L. 89:10 is but one of the many programs financed by the federal government. Some of its programs I like and some I dislike with a passion.

However, since federal grants are available the district should make a determination as to whether it should utilize such funds as may be available to it.

## STATE

Earmarked sources of revenue are not always what they are cracked up to be. Such is the case with the Sweepstakes. Last year we were advised to prepare our budgets on the bases of \$3,600,000 State Income. With an assist from the federal government, we received slightly over 50% of that amount. Now I realize that all small contributions should be gratefully received, but when the legislature provides for education what would appear to cover the increased cost of education in the state for one year and a little over half of that amount is received, what happens? The local tax payer has to make up the difference and that is just what you did last year.

The 1967 legislature will be faced with seeking new sources of revenue. Unfortunately, it seems to be a good gimmick to tie any form of taxation to support for education. This should not be done. All revenue should go to the general fund and financial support for the various state services obtained from this source.

Again I submit the State Department of Education's

figures for the State average per pupil cost on which tuition charges are based. You will recall that these do not include expenditures for transportation, debt service or new equipment.

Year	High School	Elementary
1961-62	\$436 00	\$265 00
1962-63	457 00	279 00
1963-64	449 00	295 00
1964-65	467 00	311 00
1965-66	489 00	328 00
1966-67	521 00	351 00

Some school districts in the state with the use of a state approved formula have indicated that their tuition charges for 1966-67 will be over \$600 with one as high as \$670.

I suspect that these increased costs have done much to encourage school districts to study the possibility of joining with other districts in their educational endeavors. Again this year new Regional School Districts will come into being and some will be voted on at the March meetings.

This area again is being involved in a study. This time Henniker, Weare, Hillsboro-Deering, Antrim and Bennington have been invited to study the possibility of a cooperative venture. Something of this nature will probably be the eventual outcome, but whether acceptable to the citizens of the area at this time is dubious.

### LOCAL

So excellent was the Construction of the Pierce School that over the years there has been need for little or no maintenance. However, we are now beginning to find items which were modern and adequate at the time of Construction, now antiquated and inadequate in today's educational operation. Last year the district wisely set aside a sum of money from Sweepstakes revenue to replace a heating system which is in extremely bad repair. A special article in the warrant asks that an additional sum be appropriated in order that this work can be completed this summer. Our present incandescent lighting system falls far below present day classroom lighting standards and it is the Board's plan to ask that sweepstakes monies be used to remedy this problem in another year.

We are presently and probably will continue to receive grants to subsidize our library resources efforts. Before we can utilize such materials to the best advantage we need space to store, display and use these resources. We have a space in the basement but renovations are required. The basement is in poor condition. Over the years water seepage and dampness have done considerable damage.

Contributing heavily to this seepage and retention of dampness has been the spruce trees that cover two sides of the building. The district has spent a considerable amount of money in trying to alleviate the condition and retain the trees but to no avail. The practical thing to do is to remove the trees and relandscape the site. This proposal will be in a warrant article for your consideration.

For several years now the high school pupil transportation problem has been with us. School records will show that those who depend on private transportation to school often have undesirable attendance records which, of course, reflects upon their scholastic records. Little by little we have seen high school transportation opportunities drop off until only Whitney Bus, after a considerable amount of persuasion, continues to operate for a questionable period of time. Your transportation committee will have a recommendation for your consideration. Is isn't the full answer, but a step in the right direction.

Due the various circumstances, the Bennington School District lost three of their officers during the school year. Mrs. Mary Wilson, who had served as district treasurer since 1938, found it necessary to resign early in the year. At graduation, the School Board presented a beautiful certificate in appreciation of her long and excellent service to the District. Later Mr. Raymond St. Lawrence and Mr. Clifford Smith, who were serving their second term in office, resigned. The district was fortunate in being able to find excellent, hard working replacements in all cases. Mr. Charles Lindsay accepted the appointment to the treasurer's position, Mrs. John Warren succeeded Mr. St. Lawrence and Mr. Lawrence Laviolette succeeded Clifford Smith.

Although our educational problems seem to multiply, it is always a pleasure to work in an atmosphere conducive to quality education. I appreciate the districts efforts in this direction.

Respectfully submitted,

Norman R. Hartfiel
